EXPERIENCE

Full Stack Java Developer Intern — [CampusPe](#) Feb 2026 – May 2026

- Developed and tested full-stack web application functionality across frontend, backend, and database layers.
- Built responsive application interfaces and backend features using JavaScript, Node.js, Express.js, and REST APIs.
- Developed CRUD APIs with MySQL for structured data storage, JWT authentication, and Postman endpoint testing.

Team Lead / Software Developer — [Risk Assessment Engine](#) (Team Project) 2026

 [GitHub Repository](#)  [Live Application](#)

- Led development activities for a full-stack risk assessment application, coordinating frontend, backend, AI, and security workstreams.
- Developed application functionality using React.js, REST APIs, reusable components, form validation, and JWT security.
- Collaborated through Git/GitHub branching, code integration, pull requests, and issue resolution.

SELECTED PROJECTS

Airbnb-Style Full-Stack Web Application — MERN Stack

 [GitHub Repository](#)  [Live Application](#)

- Built a full-stack accommodation listing platform with end-to-end property CRUD operations, user authorization, and Cloudinary media upload.

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, EJS, Cloudinary

Weather Application — REST API App

 [GitHub Repository](#)  [Live Application](#)

- Built a responsive React.js weather application with real-time city-based search, external REST API integration, and error handling.

Tech Stack: React.js, JavaScript, REST API, State Management, CSS3

Gemini AI Flash Chatbot — Generative AI

 [GitHub Repository](#)  [Live Application](#)

- Built a modern AI chatbot using React.js and Gemini Flash API, supporting real-time conversations, markdown parsing, and code syntax highlighting.

Tech Stack: React.js, Gemini API, JavaScript, Markdown, CSS3

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering — [M.S. Engineering College, VTU](#) 2022 – 2026
